likes: C++, music, blue, the Simpsons.

dislikes: paper straws.

PROFESSIONAL EXPERIENCE

Online Presence, Principal Engineer
(September 2021 - March 2024)

- Coordinate Dev teams through the design, development, and completion of software projects including debugging, code review, testing, and documentation.
- Collaborate closely with senior staff as well as stakeholders from other departments, proposing effective solutions to complex technical problems, as well as ensuring clean code and early implementation.
- Remain updated on the relevant technologies, tools, and practices in software development, actively seeking opportunities for individual and collective learning and professional development

Kingsmith Atlantic Ltd, IT Consultant
(September 2020 - January 2024)

- Build software to process invoices, maintain records, and handle budget and expense management as well as provide support and guidance to staff on appropriate operation.
- Maintain records/logs of repairs and fixes and maintenance schedule, diagnose and resolve user experience issues (repair or replace parts, debugging, perform updates etc.)
- Provide additional support as needed, such as conducting research, consulting on special projects, and liaising for web app updates, digital content, paid advertising, email campaigns etc.

UB30, Sound Designer
(August 2018 - June 2020)

- Operate the mixing console, recorders, and effects units, as well as take notes, label tracks, and communicate with the artists and clients.
- Support managerial team in the ongoing learning and development of employees by providing direct feedback, coaching, mentoring and guidance.
- Help with editing, mixing, and mastering the recorded tracks, as well as backing up and transferring the files.
